PROGRAMS OFFERED

**5-YEAR PROGRAM
INCLUDES
PREMEDICAL**

**4-YEAR MD
PROGRAM**

**Premedical
Program**

**Basic Science
Program**

**Clinical Science
Program**

PRE-REQUISITES FOR ADMISSION INTO MD PROGRAM

Age	Minimum 18 years
Education	A. High/Secondary school completion from a regionally accredited school is required B. Within the last 10 years, Undergraduate / Bachelors / Associate / College / Premedical studies from a regionally accredited school/college, accumulating a minimum of 90 credits which included the following is required -- One year of Biology / Zoology with lab (8 credits)- One year of General / Inorganic Chemistry with lab (8 credits)- One year of Organic Chemistry with lab (8 credits)- One year of Physics with lab (8 credits)- One year of English (6 credits) C. The following is optional – one semester of Mathematics (calculus or statistics) D. A total GPA of 3.0 or higher is preferred. Applicants with lower GPA scores should present compelling letters of recommendation and a personal statement to demonstrate that they have a strong commitment to pursuing a career in medicine. E. MCAT is recommended, but not required, for USA's applicants. F. Indian applicants- if you wish to get licensed in India then NEET qualification is required (50th percentile for general category and 40th percentile for special reservations). NEET is not a requirement if you wish to get licensed to practice in all other countries including Antigua, USA, UK, etc. G. If the above required credits were not taught in English, then TOEFL or IELTS is required. H. An English translation of non-English transcripts will have to be submitted. I. Official transcript needs to be sent directly from your school

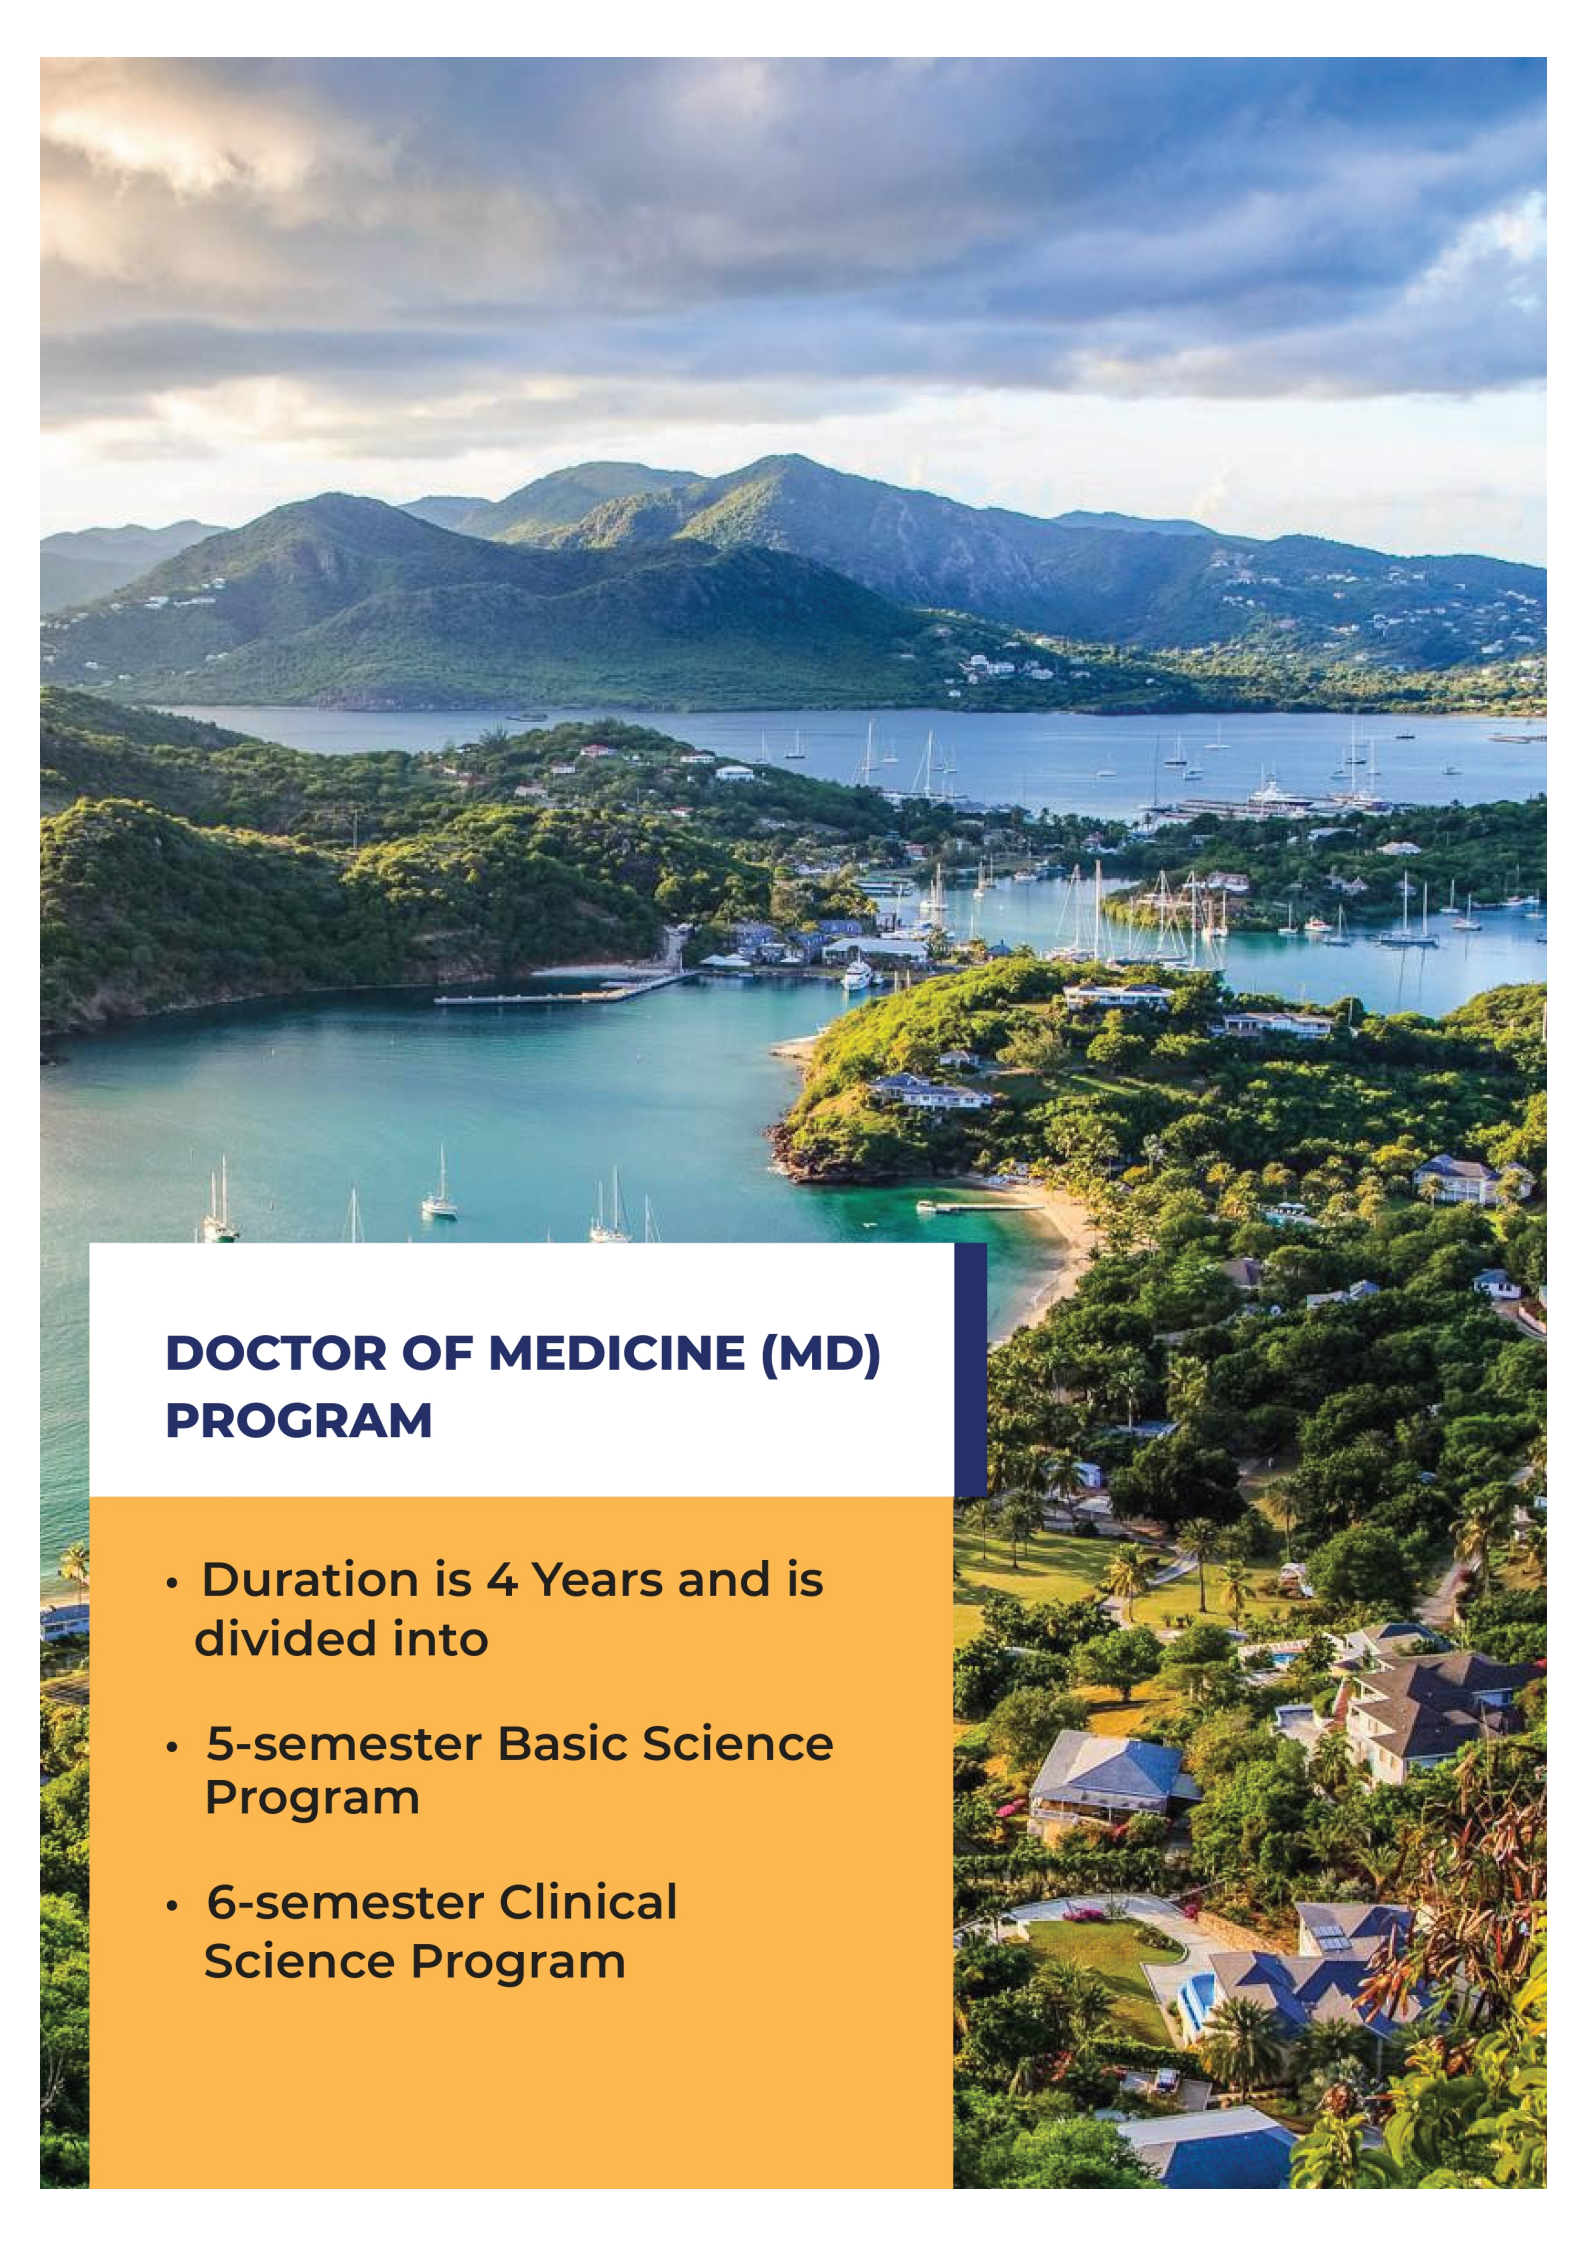

PRE-REQUISITES FOR ADMISSION INTO MD PROGRAM

Age	Minimum 18 years
Missing educational requirements	A. Any exceptions to the above required segments are made on case-by-case basis B. If you are missing any of the requirements listed above, then please consider MUCM's premedical program which will award you the required premedical credits allowing you a seamless transition into MUCM's MD class. C. Any equivalency or acceptance of other allied healthsciences, pharmacy, nursing, or other related biological sciences credits to suffice for the above can be only evaluated after reviewing your transcripts. D. If your credits are more than 10 years old or you are looking to transition from arts or non-medical fields then your profile may be evaluated for admissions into MUCM's premedical program with later transition into MUCM's MD program.
Transfer students acceptance	Individuals seeking to transfer from another medical school may be considered under exceptional circumstances. Please reach out to the admissions office for further details. The previous medical school must be listed in The World Directory of Medical Schools at https://www.wdoms.org/ and have no negative sponsor notes during the time at which the student finished the transfer credits.
Other requirements	A. Personal statement – A short essay addressing why you want to become a doctor. B. Current curriculum vitae C. Two Letters of Recommendation D. Criminal Background check (Police Clearance Certificate)

PRE-MEDICAL PROGRAM

- Comprises of 3 semesters
- Conducted in Antigua
- Fulfills all the pre-requisites for admission into Basic science program
- Awards 90 College-level credits
- Advanced Placement possible for eligible students

An aerial photograph of a tropical coastline. In the foreground, a lush green hillside with palm trees and some buildings slopes down towards a bay. The water is a clear, vibrant turquoise. Numerous sailboats are anchored in the bay. In the background, a range of green, forested mountains rises under a sky with soft, white clouds. The overall scene is peaceful and scenic.

DOCTOR OF MEDICINE (MD) PROGRAM

- Duration is 4 Years and is divided into
- 5-semester Basic Science Program
- 6-semester Clinical Science Program

BASIC SCIENCE PROGRAM

- Divided into 5 semesters
- First 4 semesters teach the foundational courses of medicine, like Anatomy, Physiology, Biochemistry, Pathology, Pharmacology, etc.
- Fifth semester is a comprehensive review semester acting as a bridging semester between basic science and clinical sciences

CLINICAL SCIENCE PROGRAM

- Divided into 5 semesters
- 4 Semester of Core Clerkships (Rotations) and
- 2 Semester of Elective Clerkships (Rotations)

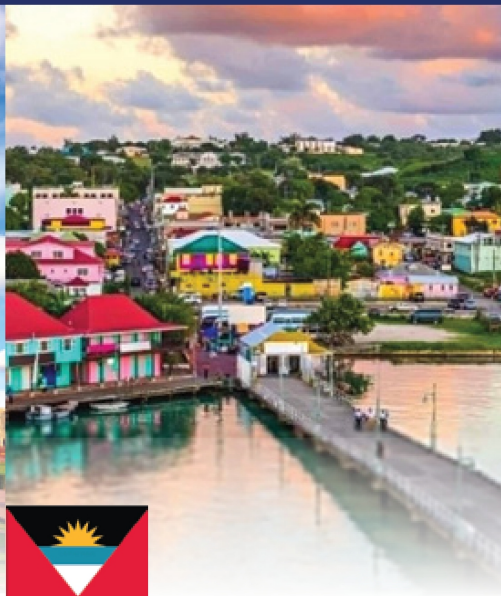

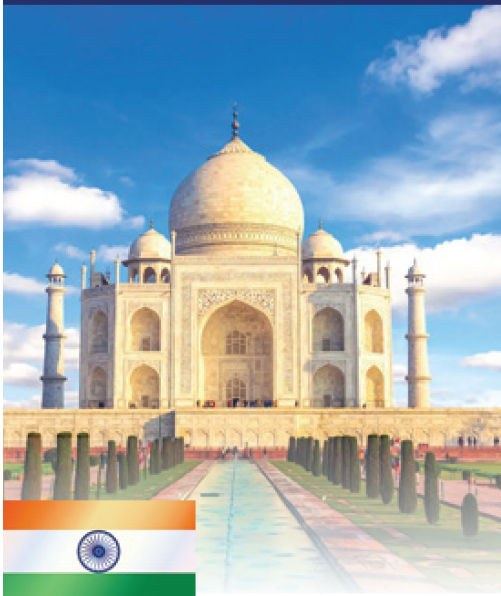

CORE CLERKSHIPS

- Conducted in Chicago and Antigua

ELECTIVE CLERKSHIPS

- USA (Available in various states)
- Antigua
- India

DEDICATED AND PASSIONATE FACULTY AND STAFF

OUR MD PROGRAM IS RECOGNIZED WORLD-WIDE

Ministry of Education,
Government of Antigua and
Barbuda

School listed on WDOMS
(World Directory of Medical
Schools)

Program evaluated and
approved by ABNAB (Antigua
and Barbuda National
Accreditation Board)

Now Accredited with The Caribbean
Accreditation Authority for Education in
Medicine and Other Health Professions
(CAAM-HP) Pathway for global medical
licensure

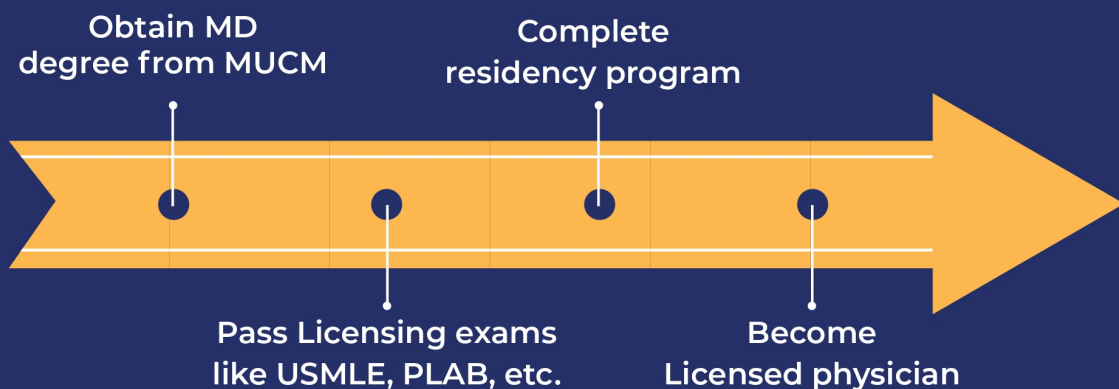

WHY US?

- Completion all pre-requisites from MUCM or regionally recognized school
- Have completed bachelors in science / pharmacy / nursing or dentistry
- Quality Education with United States Clinical Experience as part of program
Tuition is lower than most Caribbean schools and Indian Private schools
- Low Teacher to Student ratio allowing individualized attention
- The MD Program follows USA-approved curriculum, which fulfills the USA Medical licensure requirements, that is accepted globally
- A Huge network of international teaching hospitals is affiliated to the University
- Teacher guidance available, along with brainstorming sessions among students, voluntary research and case studies, and much more beyond inclass learning

PATHWAY TO MEDICAL LICENSURE

MUCM ADVANTAGES

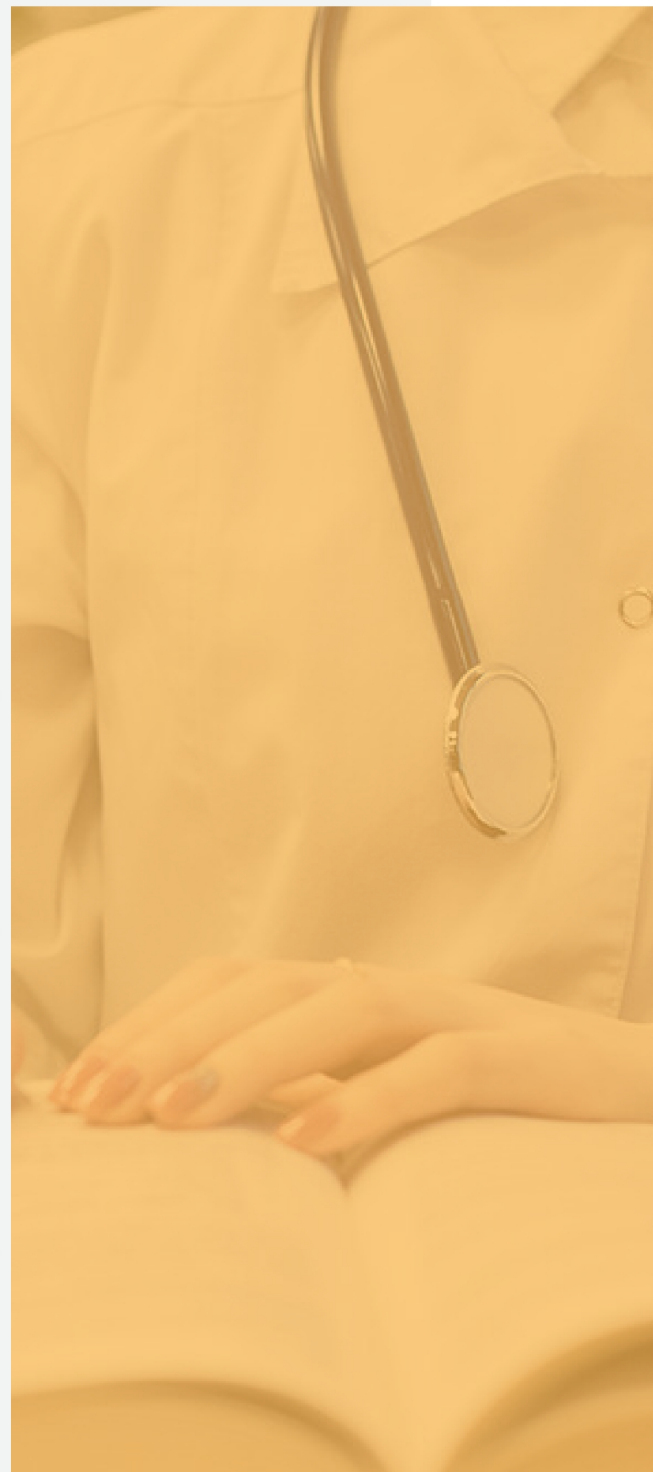

Preparations for licensee exam USMLE, PLAB starts from Day 1 of the MD program exam USMLE, PLAB starts from Day 1 of the MD program

Dynamic student support services that are tailored to individual needs

Profile matching during electronic residency application process vital for getting selected for hospital residency interviews

Residency interview counseling under US-board certified physician pane. This will prepare students for the interview enabling them to excel in them, which is critical for matching

2-years of clinical clerkships in US teaching hospitals fulfills the US state medical boards requirement for USCE a Gives the students the opportunity to get LORs (Letters of Recommendation) from US-board certified physicians and medical directors vital for residency interview selection and passing

TUITION

Anitgua 5 - Year Program	Tuition in USD
Year 1 (Premedical Sciences Semesters PM 1-3)	7292 Per Semester
Year 2 (Basic Sciences Semesters MD 1-3)	7292 Per Semester
Year 3 (Basic Sciences Semesters MD 4-5)	7292 Per Semester
Year 4 (Clinical Sciences Semesters CS 1-3)	11667 Per Semester
Year 5 (Clinical Sciences Semesters CS 4-6)	11667 Per Semester

Anitgua 4 - Year Program	Tuition in USD
Year 1 (Basic Sciences Semesters MD 1-3)	7292 Per Semester
Year 2 (Basic Sciences Semesters MD 4-5)	7292 Per Semester
Year 3 (Clinical Sciences Semesters CS 1-3)	11667 Per Semester
Year 4 (Clinical Sciences Semesters CS 4-6)	11667 Per Semester

- The Clinical Sciences Semester tuition is the same regardless of the location of the affiliate hospital where the clerkship placement is done.
- Teaching hospitals periodically review and update their fees, and the tuition for the final two years is subjective to change based on those alterations.
- Tuition may be paid in monthly instalments at 0% APR; However, all such payment plans must be approved by the university management in advance.
- Please also note if a student fails a course that needs to be repeated, there will be an additional tuition charge per repetition.
- Tuition does not include administrative fees, housing and meals, please refer to the "Other Fees" section for details.
- Please be aware of published refund policies and disclosures.
- Please note that Antiguan citizens may receive special scholarship of up to 25% for Premedical and Basic Science Semesters.
- Ask us about special scholarships for CARICOM citizens
- While the institution will assist the students in Visa application process, we do not guarantee VISAs to any foreign countries.
- Scholarships are available for international students (non-CARICOM) periodically, subject to academic review and at the discretion of the management.

White Coat Ceremony Fees	\$200	One-time Fees for white coat ceremony. School provides the White Coat with school logo.
Medical (Health) Insurance*	\$480 per semester in Antigua	Health insurance for students. This is mandatory and covers regular physician consultations. Health Insurance in Antigua is paid through school. Health Insurance in USA is obtained directly from insurance company.

OTHER FEES

Charge in USD	Remarks
Malpractice Insurance	Hospitals and clinics in the United States and throughout the world require medical students to carry medical professional liability insurance (malpractice insurance).

ACCOMODATION

University dorms are available. Limited rooms awarded on a first-come basis.

Additional Fees	Charge in USD	Remarks
Hostel Fee and Options ** Rates are for student who chose to stay in the University dorms If student wishes to stay outside the University dorms, arrangements shall be made with reliable realtors to view rental properties. Rent will vary based on apartment selected.	\$900 per month for Single Occupancy \$550 per month for Double Occupancy \$400 per month for 3-person per room (Based on availability)	University Dorms available during student education in Antigua and Barbuda. All rooms are Airconditioned and have internet access. All utilities and internet are included in the rent.

REFUND POLICY

The refund will be applicable as below*:

1. Seat Reservation Fees and E-resources fees are non-refundable even if the student is eligible for full refund. Similarly, any fees paid to immigration, hospitals, or other government departments for facilitating visa assistance will be non-refundable.
2. All refunds are to be requested by the student in writing. The date of refund request will be the date the request was received by the school.
3. Generally, for a full refund, the deadline is before the start of the semester in basic sciences and before the confirmation of a schedule in clinical sciences.

Please refer to the student's handbook for full details.

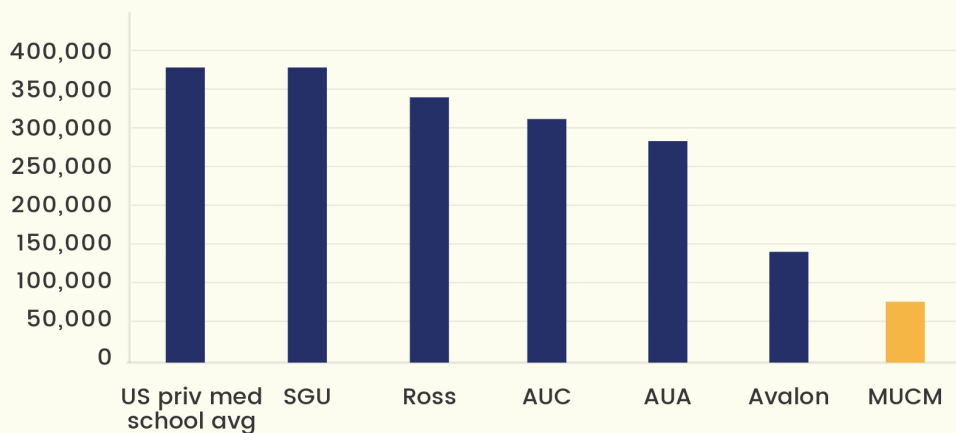

FINANCIAL AID

You may qualify for the following financial aid:

1. For Antiguan applicants- the department of education may nominate 2-3 students per year who will receive full scholarships for the premedical sciences and basic medical sciences.
2. For all Antiguan applicants- MUCM gives 50% scholarships in the premedical sciences and basic medical sciences years, with the condition to continue at MUCM to finish their medical school. These students will pay 50% of the tuition rate for all premedical semesters and basic science semesters. This aligns with our commitment to the local community and reflects our sincere interest in supporting the development of future physicians in the Caribbean.
3. For Indian applicants- they may be eligible to receive education loans from State Bank of India (SBI) and many other private banks. The amount that can be financed varies and such information can be obtained on these bank websites.
4. For US and Canadian applicants- Currently, MUCM does not have federal loans. However, we offer a very affordable tuition package which makes it very feasible to obtain high-quality education. Please keep in mind that you may have to spend many years paying back the expensive educational loans that many schools ask for, see the table of comparisons in tuitions. Hence, it's up to you to decide on the tradeoff between a high-quality affordable education at MUCM vs very expensive tuition paid via loans at some of the other accredited institutions. Finally, MUCM is in the process of securing federal and other loans for the upcoming year, however, we cannot give a definitive timeline for its completion at this time.
5. MUCM offers 0% APR installment plans to be paid monthly but need to be approved in advance, please talk to an admission specialist.
6. MUCM offers significant discounts on annual payments vs semesterly payments, please see the tables above in the tuition section.
7. Referral aid system- Students are the best advocates for a school. They have experienced the quality of education and the support the school offers. As such, a good word from them goes a long way. If a student successfully refers another student to join the program, then the referral aid discount of \$2000 USD/referral is applied to the student who has referred with no limit on number of referrals. This is awarded in the following semester after the second student has finished an academic year. To gain a full referral amount, the new student must have joined within the 1st year of the MD program. Please talk to an admissions specialist for full details.

COMPARABILITY TO COMPETING MEDICAL SCHOOLS

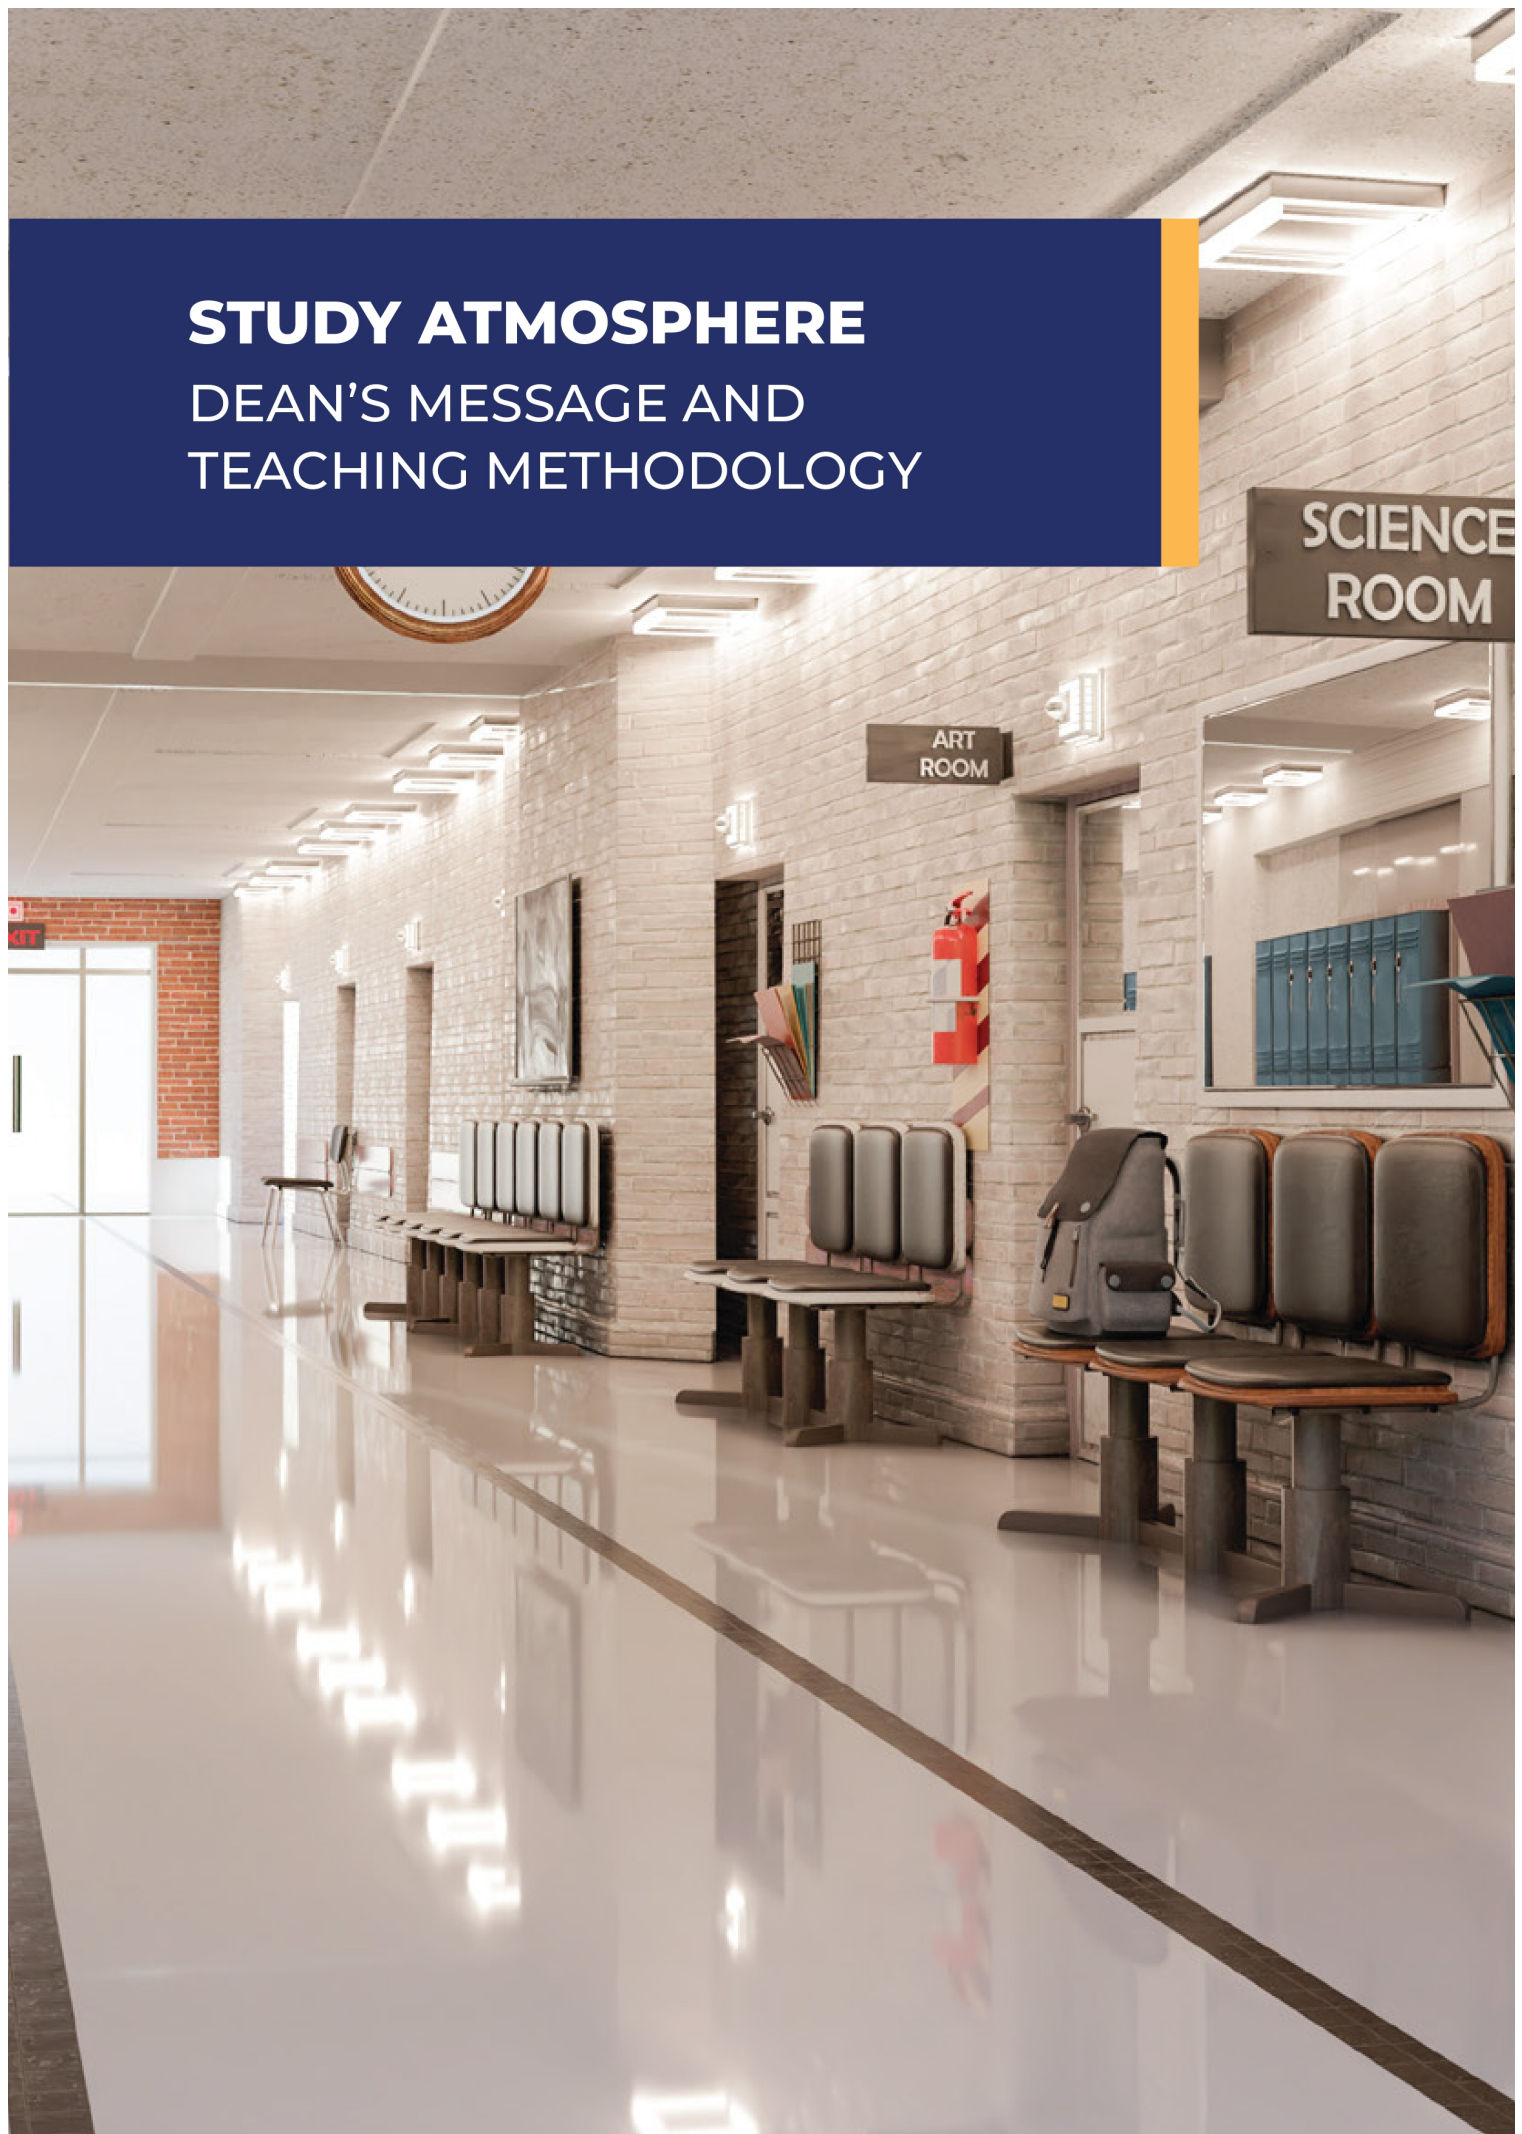

Total Tuition 4-Year MD (US\$)
(only showing accredited schools)

- Our academic program is comparable to that offered by the top universities in Caribbean but for a lower cost of education.
- We offer clinical rotations in USA just as they do and with the added individualized attention that we provide you will receive comparable or even better-quality education for lower cost.

STUDY ATMOSPHERE

DEAN'S MESSAGE AND
TEACHING METHODOLOGY

DEAN OF THE MEDICAL SCHOOL

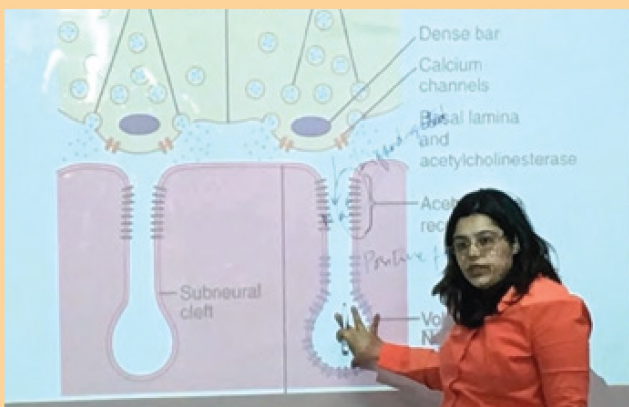

Our Doctor of Medicine program utilizes a variety of tools incorporating various platforms including digital networks, comprehensive digital library, problem based learning, case-based methodology, and simulation labs, etc. Our faculty integrates the fundamentals with advanced concepts and the curriculums stem across multiple courses to provide a correlative, logical, and thorough learning approach. We also emphasize strongly on the clinical application of the basic knowledge along with clinical skills training in the first two years which makes the transitioning into clinical years more streamlined. We have a low student-to-faculty ratio which enables our faculty to focus on individual student needs and provides maximum faculty mentorship for every student. One of the most essential parts of our program is our student services and staff who work tirelessly to perfect the student's wellbeing in every aspect of student life and, as in student's own words, act as the strongest pillars of support for our students.

TEACHING METHODOLOGY

- Content oriented Lectures
- Small Group Discussions
- Clinical Case Study Analysis, Discussion, and Presentation
- Class Presentations
- Laboratory Studies
- Clinical Skill Training with Mannequins, standardized patients and local clinic/hospital visits
